

Gabriela Ruiz

FULL STACK SOFTWARE ENGINEER

562-708-0140 | gabbsruiz@outlook.com | Seattle, WA | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

JavaScript, Typescript, PostgreSQL, Python, Flask, React.js, Redux, Prisma, HTML, CSS

PROJECTS

WhiskerHealth

[Live](#) | [GitHub Repo](#)

A pet health tracker.

- Generated enumerations for consistent drop-down choices.
- Utilized Zod to coerce data types.

ChateauBnB

[Live](#) | [GitHub Repo](#)

A chateau rental site that mimics AirBnB.

- Implemented database models to save website data & allow for the website APIs to capture and return specific data.
- Created reusable forms for posting and editing.

SplitBill

[Live](#) | [GitHub Repo](#)

An expense tracker that mimics Splitwise.

- Utilized modals for better user experience.
 - Used database transactions for multi query operations.
-

WORK EXPERIENCE

Technical Design Support

Mar 2025 – Present

Amazon, Seattle
